

# Passive House Canada In-house Training Information

Firms, government and other organizations looking to have a group of people trained in the Passive House Standard for high performance buildings may wish to arrange convenient, customizable, cost-effective in-house training for their staff. Local governments to international corporations, Passive House Canada can create an educational experience to suit all needs.

## Basic pricing structure\*

	10 people		15 people		20 people	
	Member	Non-Member	Member	Non-Member	Member	Non-Member

Customized Curriculum	Cost dependent on type of customization.					

\*Prices are subject to change, and may vary depending on location and other factors.

Passive House Canada will provide a qualified instructor, world class curriculum, and supply all necessary course materials digitally. Organizations hosting training normally provide training space, print digital learning materials, and arrange for catering or refreshments as desired.

We would be happy to work with you to customize the content and schedule of our courses around your learning objectives and work environment.
