

# Passive House Days

Canada - November 8 - 10, 2019

## Chamberlain

Interactive Construction's fourth Passive House is a duplex plus suite and is our first done under a development permit to allow for densification. It was important to the homeowners to build a home that was healthy for people and the planet. The design took care to stay true to the original house and included reclaimed and reused materials where possible. This in progress build should be wrapping up at the end of 2019.

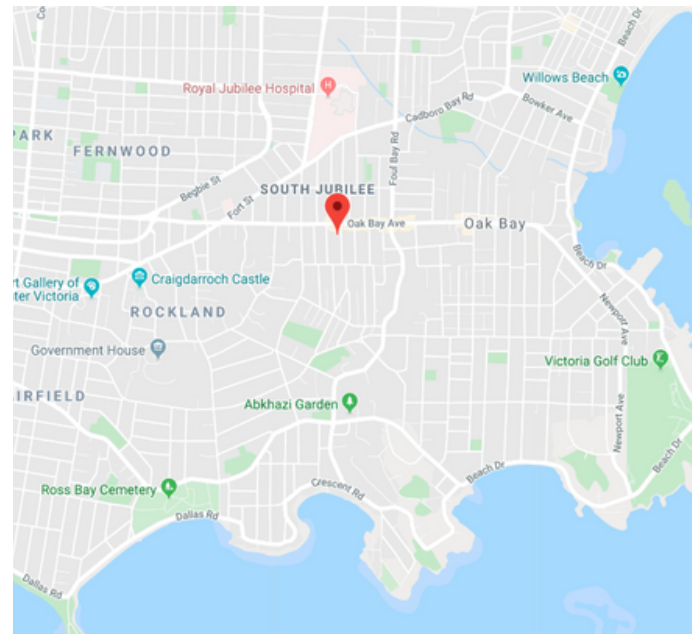

1068 Chamberlain St  
Victoria, BC

Saturday November 9, 2pm-5pm
