This project is on track to be Canada’s first private office certified to the Passive House Standard. In addition to this, Charter Telecom’s new headquarters is the largest scale and most innovative engineered mass timber structure on Vancouver Island. The owner, Charter Telecom, wanted to demonstrate their commitment to creating a healthy environment that fosters creativity for their staff, showcasing innovation to their clients, and demonstrating environmental responsibility to the community.

Charter Telecom Headquarters

2614 Sooke Road, Victoria
British Columbia

TBD
