

Passive House Days

Canada - November 8 - 10, 2019

Pacific Passive House

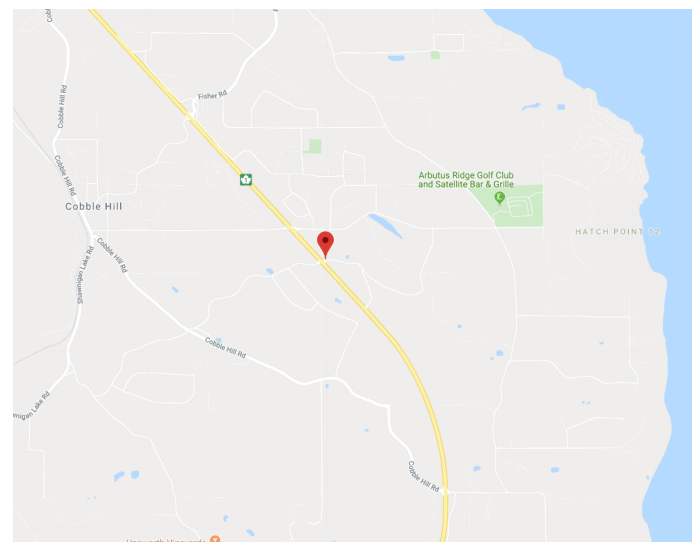

The house is situated on a 3 acre lot oriented due south with a gentle slope making it perfect for a walk-out basement; with wide open views of Baldy Mountain and plenty of trees for shade and privacy. The lot was originally treed with fir and cedar. In order to take advantage of the southern exposure and solar gain needed half of the lot was cleared. Not to worry! Every tree was milled producing 50,000 board feet which is being used as timber framing, siding, flooring, soffit, and some ship lap feature walls.

 910 Chapman Rd, Cobble Hill
British Columbia

 Saturday, November 9th, 10am - 3pm
November 8th and 10th, private tours
by appointment in the afternoon

 To arrange a private tour please call or
